Brain Injury Association of MA Donates Gifts to Wachusett Extended Care Facility Residents

In honor of the holidays, staff and volunteers at the Brain Injury Association of Massachusetts (BIA-MA) donated holiday gifts to brain injury survivors and residents of Wachusett Extended Care Facility in Holden, Mass.

The 43-bed facility is the only Chronic Ventilator Facility in the Central Massachusetts area and is home to residents aged 22 and older with needs such as anoxic/traumatic brain injury, chronic obstructive pulmonary disease (COPD), muscular dystrophy, multiple sclerosis, cerebral palsy, stroke rehabilitation, Lou Gehrig’s disease and spinal cord injuries.

Assistant Executive Director Nicole Godaire says, “At the Brain Injury Association of Massachusetts, giving back to our community is ingrained in our culture, and as our employees will tell you, one of the most rewarding aspects of our jobs.”

The Brain Injury Association of Massachusetts (BIA-MA) is a private, non-profit organization that provides support services to brain injury survivors and their families, offers programs to prevent brain injuries, educates the public on the risks and impact of brain injury, and advocates for legislation and improved services.
